(Hereinafter referred to as Partners)

ARTICLE 1 – PURPOSE

The purpose of this Memorandum of Understanding (MOU) is to formalize a cooperative relationship necessary for effective implementation of invasive species management among interested parties in Florence, Forest and Marinette Counties of Wisconsin, and Dickinson and Menominee Counties of Michigan, hereinafter referred to as “Partners” of the Wild Rivers Invasive Species Coalition (WRISC). These five (5) counties comprise the geographical “service area”.

Interested parties, before becoming formal Partners, shall be required to sign a signatory page stating that they understand participation is voluntary under the applicable articles of this MOU.

ARTICLE 2 – STATEMENT OF MUTUAL GOALS, INTERESTS, AND BENEFITS

Invasive species are recognized as a widespread and increasing problem with serious economic and ecological impacts on public and private lands and waters, as well as hazards to human health.

Partners agree that it is to their mutual benefit and interest to work cooperatively to manage invasive species across jurisdictional boundaries within the WRISC service area. This cooperative effort will promote management of invasive species while improving working relationships between the Partners and the public.

All signatories of this MOU shall:

- a. Have a mutual interest in preventing the establishment and spread of invasive species and share the following common goals:
 1. COOPERATION - Facilitate development of cooperative agreements for invasive species management with opportunities for sharing available resources.
 2. INFORMATION EXCHANGE - Share technical information regarding control methods, locations and new infestations. Promote project success among Partners and other invasive species management efforts employing Best Management Practices (BMPs).
 3. EDUCATION - Increase public awareness of invasive species identification, prevention and management.
- b. Provide input in the development and maintenance of an Invasive Species Strategic Management Plan, which outlines the goals and objectives of WRISC.
- c. Contribute available material and staff resources within the service area used for public education and raising awareness of invasive species, including prevention steps and management techniques. Each Partner shall manage their own activities and contributed resources.

WRISC may cooperate with public and private landowners or other entities in carrying out the goals and objectives of this MOU. Legal entities, including county, state and federal agencies, and tribal communities, may require separate formal agreements to execute projects on their land.

Liability waivers will be available for project landowners and volunteers.

No Partner shall assume any fiscal benefits other than those stated in projects approved by WRISC.

ARTICLE 3 – LEGISLATIVE AND FISCAL AUTHORITY (NON-FUND OBLIGATING DOCUMENT)

This MOU is not intended to establish legal authorities or mandates where they do not currently exist.

This MOU is neither a fiscal nor a funds obligation document. Any endeavor involving reimbursement or contribution of funds among the Partners to this MOU will be handled in accordance with applicable laws, regulations and procedures, including those for Government procurement and printing. Such endeavors will be outlined in separate agreements that shall be made in writing by representatives of the interested Partners and shall be independently authorized by appropriate statutory authority. This MOU does not provide such authority. Specifically, this MOU does not establish authority for noncompetitive award to the cooperator of any contract or other agreement. Any contract or agreement for training or other services must fully comply with all applicable requirements for competition.

ARTICLE 4 – STATEMENT OF AGREEMENT

The signatory Partners mutually agree to the following:

- a. Geographical WRISC service area includes Florence, Forest and Marinette Counties in Wisconsin, and Dickinson and Menominee Counties in Michigan.
- b. Operate under the direction of an elected Board of Directors in accordance with the adopted bylaws. Bylaws are the organizational guidelines adopted by the Board of Directors which may be amended as needed.
- c. Share information among the Partners and provide available assistance and expertise regarding invasive species management on lands and waters within the WRISC service area (e.g. control methods, prevention measures, restoration tools, standardized data collection, etc.).
- d. Provide opportunities to outside interest groups, private landowners, and the public for involvement in invasive species management on lands and waters within the WRISC service area.
- e. The Dickinson Conservation District will serve as the fiscal administrator for any grants, agreements, or financial support received by WRISC under separate agreement. This is subject to change as needed.

- g. Partners will work toward the objectives of this MOU as schedules and work plans allow, and their staff will remain under the direction and control of their respective agencies.

ARTICLE 5 – TERMS OF AGREEMENT

The MOU will become effective and operational at the Annual Meeting in June when Partners may be added to the Partner List. The MOU will expire in five (5) years. Each Partner shall be given proper notice to review and renew the MOU. Any Partner who desires to continue in the cooperative participation of the MOU, as may be amended, shall execute a new MOU agreement by submitting a new signatory page.

If a signatory Partner does not renew the amended MOU thirty (30) days prior to the annual meeting, they shall be considered expired as of June 1. If the Partner reconsiders and again desires to sign the MOU agreement, as amended, Partners may be added at the next Annual Meeting each year in June.

ARTICLE 6 – MOU AMENDMENTS

ARTICLE 8 - TERMINATION OF PARTNERSHIP

Any Partner may withdraw from this agreement at any time before the date of expiration by providing thirty (30) days written notice to all signatories.

A Partner may be removed from this agreement should a two-thirds (2/3) majority of the Board of Directors deem any Partner's actions to be contrary to the mutual goals and interests expressed in this MOU.

There are no reports and/or other deliverables associated with this MOU.

ARTICLE 10– PROPERTY UTILIZATION
